Reliability

Computer Techniques, Inc. is dedicated to providing you with the most reliable service around. We maintain less than a 7:1 user to modem ratio and we will upgrade when necessary to keep this excellent ratio. We realize that busy signals are not acceptable and will do everything we can to keep the number of busy signals to zero. If you do experience a busy signal please leave us a comment so we can keep this great service available. Computer Techniques, Inc. is proud to provide the best technical support in the area. Our technicians are certified by Microsoft and CompTIA.

Speed

Computer Techniques, Inc. is providing ultra fast dial-up speeds for amazing video, excellent audio, high speed downloads and fun web surfing. We here at Computer Techniques have 56k digital phone lines so our customers can obtain the fastest possible speeds. All of our modems are K56flex and V.90 capable. Relax if you have an X2modem from US Robotics, you will still connect at speeds around 33,6000. If you need to purchase a 56k modem please feel free to call us at (217) 824-6398.
